

## Information site and kick-off meeting academic year 2020-2021

Dear student,

You will start your Electrical Engineering course in February.

Thank you for coming to study with us. To help you as best we can, we have created the Fresh at Fontys site. Here you will find everything about your application and registration, your first week of classes, book list and much more. Curious yet? Then quickly click [here](#) to go directly to the site.

### Kick-off meeting

We start the academic year with an online kick-off meeting (which is mandatory) for all first-year students who start in February 2021.

### Programme Monday February 8th, 2021:

#### 10:00 - 12:00 General introduction

Get to know your group and your mentor. For this session prepare two PowerPoint or PDF slides about who you are and what you want to share with the new group. Think about where you come from, what your hobbies are, why you chose electrical engineering, etc. You can share these slides live during the online session.

#### 12:00 - 12:30 Online lunch with your own group

Make sure you have something to eat and/or drink available.

#### 12:30 - 14:00 Introduction to Fontys and the Electrical Engineering course

Where will you end up? What is expected of you? What does your education look like? These are some of the questions that will be addressed during this introduction.

Shortly you will receive another email with a link to MS Teams for the kick-off meeting. In the appendix you will find instructions about working and studying with Microsoft Teams.

We would also like to emphasise to our international students that before starting a study at our University of Applied Sciences, a negative corona test is required to enter the Netherlands and that there is a mandatory quarantine period of 10 days after arrival in the Netherlands. For actual news about the corona virus in the Netherlands and measurements taken by Fontys, please check this [website](#).

Do you have questions about your registration, dates or other matters related to your new study? Please contact the Student administration office by email ([engineeringeindhoven@fontys.nl](mailto:engineeringeindhoven@fontys.nl)) or telephone: 08850-77333.

We wish you a challenging and fun academic year!

Sincerely,  
Fontys School of Engineering
