

4.000 students

50+ nationalities

125 partner universities

institutes

12 bachelor programmes and 3 masters

MULTILINGUAL education

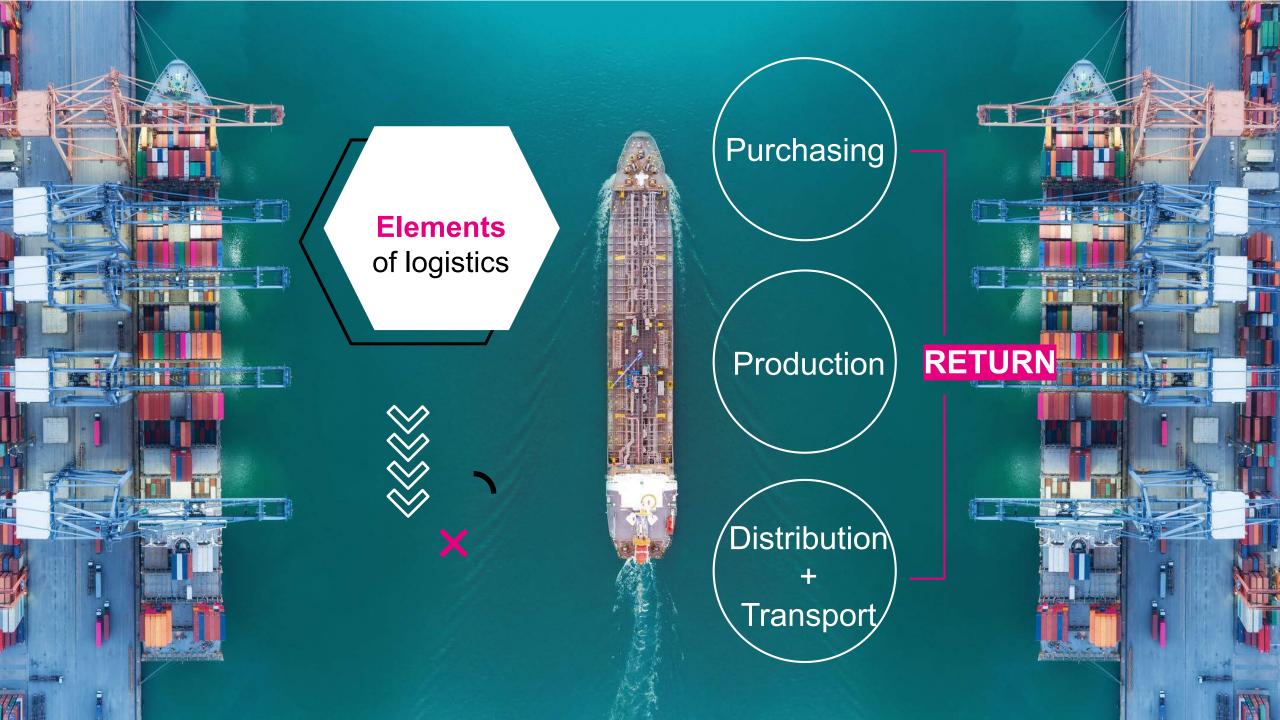

LOGISTICS ENSURES THAT PRODUCTS, ARE AVAILABLE:

- at the right time;
- in the right quantity;
- in the right place;
- at optimal cost;
- of good quality.

PURCHASING

- From which suppliers are we going to buy raw materials?
- Do we collaborate with our suppliers/ customers?

PRODUCTION

- In what order are we going to produce?
- Do we keep all products in stock before customers order them?
- How much do we stock?
- Do we store the products close to customers?

DISTRIBUTION

 How do we deliver the products to customers (road, sea, rail)?

RETURN

- How do we
 manage the flow
 of returned
 products?
- Costs vs.
 Sustainability
- Refurbish or scrap?

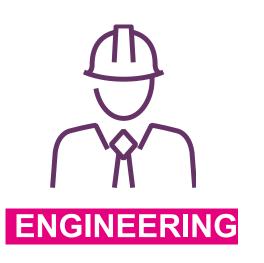

Logistics is 'HOT' in Venlo region
