18/11/2019 – 22/11/2019

/ Howest University of Applied Sciences Belgium – Bruges

Applied Psychology is more than ever linked to different cultures and nationalities. Students can explore the broad field of psychology and social sciences in an international context to learn from other cultures.

During this one week student conference we offer different key-note lectures, interactive workshops, group work with other international students concerning different themes:

- Peer support program to prevent (cyber)bullying
- Psychodrama as a therapeutic method in psychology
- E-health: online tools in mental health care
- Inclusion in society in European perspective
- Prevention of sexual aggression with the Flag system
- Training on professional competences in HR consultancy
- Superdiversity in Europe: impact on education, psychological support and social care
- Solution focused therapy – a method in positive psychology

We invite lecturers from different European countries to participate in the conference: Belgium, The Netherlands, Sweden, Finland, United Kingdom, Malta,...
